DETAILED ACTION

Allowable Subject Matter

1. Claims 1-24 are allowed.
2. The following is an examiner's statement of reasons for allowance: The closest cited prior art Frisch (WO 00/33207) fails to disclose all of the elements now recited in the newly amended independent claims. Specifically, the added limitation of optimizing a video processing algorithm without regard to prior information from any of the video processing algorithms—when taken in combination with the remaining limitations—is not taught by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

 - Karl Sims, "Artificial Evolution for Computer Graphics" Computer Graphics, July 1991
